Subject: [External] Cancellation of Class C Charter application

Hi Janice,

I just spoke to Carole Chauvin at ORS to confirm my cancellation of my application for a Class C Charter certificate. I was under the impression since I never pursued the payment or request for the ORS ID number, nor did I apply for a LS tag within the deadline, that my status was nullified. Carole has stated that I need to speak to you to get a written confirmation in order to provide my insurer with proof of cancellation. I am cancelling because a charter is not truly what my business is. I am a nanny that works with families to provide care and transport for their children. I simply wanted to provide coverage and any safety requirements needed for carpooling multiple children from multiple families. I am not an Uber or limousine. Transportation is simply one of many services I provide. I am not in demand in anyway, I am paid an hourly rate which paid weekly, and my services are contracted by the semester and season. My referral number is 2018-368-T. My llc is TeamtransSPORTS. I am also in the process of dissolving that llc.

Thank you,

Colleen Gurney
